Seat Connection Separation Tool

Needs to be added If you may want to return the chair!

Seat Connection Separation Tool

Insert Seat Connection Separation Tool

Chair assembly

Open box from top by cutting straps and pulling flaps

Read instructions

Put all components on the floor and check that all are included

Insert the height adjustable pneumatic cylinder into the top of the base

Place the seat on top of the pneumatic cylinder

Please save and store the box and packing materials if you later decide to return the product

Disassembling the chair for return shipping (please use a towel on hard floor)

Remove the seat

Slide the open end of ball over the pneumatic cylinder and compress the cylinder

Remove the Magic Ball by turning counter clockwise

With a plastic hammer knock loose the pneumatic cylinder

Remove the cylinder

Replace the Magic Ball by turning clockwise until it stops

Bagging

Put the seat and the base in plastic bags

Put the base in the box first. Then the seat!

Be sure that the box shape is not damaged

Move the inner part of the box to fix the base

Add the lift

Move the inner part of the box above the lift

Tape the box securely
