

PRODUCT SPECIFICATION

Main body

Dark Grey 30% Fiberglass reinforced Polypropylene (PP). A bolt made of Polyamide (PA) is molded into the PP in the center.

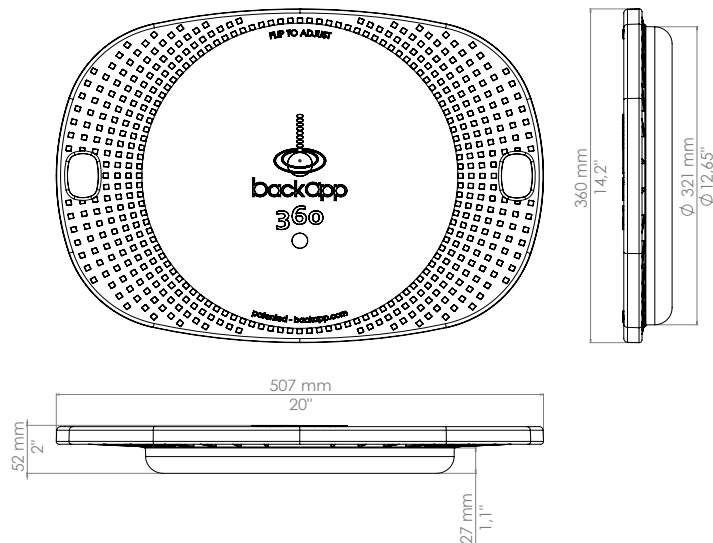

Adjustable tilting knob

Injection molded with a soft skin in Tetra Polyurethane (TPU) onto a Polyamide (PA) nut. The amount of movement (tilting) is adjusted by turning the knob (clockwise to decrease movement and counter clockwise to increase movement of the board).

Dampening ring

The dampening ring at the bottom of the board that enables smooth balancing movement is made of a soft Tetra Polyurethane (TPE) material.

Dimensions

Weight 1.8 kg, 4 lbs

Warranty

5 year limited warranty, based on maximum user weight of 110 kgs / 250 lbs

Backapp 360 Balance Board

Backapp 360, Dark Grey 8000-7021
